Virginia Electric and Power Company; Notice of Withdrawal of Application for Amendments to Facility Operating Licenses

The U.S. Nuclear Regulatory Commission (the Commission) has granted the request of Virginia Electric and Power Company (the licensee) to withdraw its July 18, 2000, application, for proposed amendments to Facility Operating License Nos. NPF-4 and NPF-7 for the North Anna Power Station, Unit Nos. 1 and 2, located in Louisa County, Virginia.

The proposed amendments would have revised the Facility Operating Licenses to delay the implementation of Improved Technical Specifications to no later than December 20, 2002.

The Commission had previously issued a Notice of Consideration of

Issuance of Amendments published in the **Federal Register** on July 25, 2002 (67 FR 48679), and repeated the notice in the **Federal Register** on August 6, 2002 (67 FR 50962). However, by letter dated August 26, 2002, the licensee stated they had implemented ITS on August 20, 2002. As such the proposed amendment is no longer needed.

For further details with respect to this action, see the application for amendments dated July 18, 2002, and the licensee's letter dated August 26, 2002, which withdrew the application for license amendments. Documents may be examined, and/or copied for a fee, at the NRC's Public Document Room (PDR), located at One White Flint North, 11555 Rockville Pike (first floor), Rockville, Maryland.
